

In many healthcare settings, such as hospitals and GP practices, patients are being asked to wear a face covering or a face mask.

Some people find wearing a face covering difficult because of disability or extreme distress. These cards can help you explain why it is difficult to wear a face covering. You can print the card out or store it as a photo on your phone.

If you need more information or advice about how health services are working you can contact Healthwatch Sheffield - phone (0114) 253 6688 or text 0741 524 9657.
